

Our support is enhanced during times of crisis, such as war or economic volatility, to take care of our existing team of world-class talent and their families.

Diversity, Inclusion, and Belonging

We believe that diverse teams fuel innovation, and we are committed to creating an inclusive culture that supports all employees.

When recruiting for new talent or developing our current employees, we strive to build a diverse talent pipeline that includes those underrepresented in the technology field, including women, Black/African American, and Hispanic/Latino candidates.

To this end, we have been:

- Partnering with institutions and professional organizations serving historically underrepresented communities;
- Embedding dedicated recruiting teams to business areas to shepherd underrepresented candidates through the interview process and find internal opportunities;
- Supporting the development of women employees through programs aimed at building a pipeline of future leaders;
- Providing peer support and executive sponsors for our internal community resource groups;
- Providing training and education to managers and peers on fostering supportive environments and recruiting for diversity;
- Track equity and parity in retention, promotions, pay, and employee engagement scores; and
- Measuring year over year progress and providing leadership visibility on diversity efforts.

As of the end of fiscal year 2024, our global workforce was 79% male, 20% female, and 1% not declared, with 6% of our workforce in the United States composed of Black or African American and Hispanic or Latino employees.

Flexible Working Environment

We support a flexible work environment, understanding that many employees want the ability to work from home under certain conditions. This flexibility supports diverse hiring, retention, and employee engagement, which we believe makes NVIDIA a great place to work.

During fiscal year 2025, we will continue to have a flexible work environment and maintain our company wide 2-days off a quarter for employees to rest and recharge.
